

Wesley Martin

Chairperson, Great Lakes
Native American Elder
Association & Oneida
Nation Elder

**For me. For my family.
For my community.**

Getting a COVID-19 vaccination is safe and effective.

More importantly, protecting yourself against the
COVID-19 virus means you are also protecting your friends,
your family and your community.

**I got my COVID-19 vaccination.
Please get yours too.**

If you are concerned about getting a vaccination,
please talk with your doctor or health care provider.
